Martindale prides itself on working with all community residents, whether it is supporting a Cricket League, helping to lend a hand with new school projects, or helping surrounding community associations. MCA has fostered relationships with various groups.

MCA Past and Future

We have worked to create a Centre of community through the building of the Genesis Centre of Community Wellness, the MCA board had the vision to provide volunteer hours and a financial component to the successful completion of this Centre.

We now have an office space in the Genesis Centre. We will continue to work the City of Calgary to achieve a well run CA.
